THE  **COLE** NURSERY CO.
PAINESVILLE, OHIO

Phone **ELmwood 2-3121**

TERMS and CONDITIONS OF SALE

PRICES are F.O.B. nursery at Painesville, Ohio. Any boxing or baling necessary is charged at near cost. Prices in this list are subject to market changes and cancel those in all previous price lists.

TERMS. 1% 10 days; net 30 days to those having established credit with us. Cash orders receive 2% off. Be sure to include enough to cover packing, so as to eliminate C.O.D. costs. Overpayments returned promptly. C.O.D. orders must be accompanied by at least 1/3 of the amount of the order.

CLAIMS for rejections, shortages, or other reason will be entertained only if made within 5 days after arrival of goods.

GUARANTEE. We guarantee all stock to be true-to-name and free of injurious insects or disease. All goods travel at consignee's risk; we assume no responsibility after they leave the nursery. It is mutually agreed that in no case shall we be held liable for a greater amount than the purchase price of any item.

SHIPMENTS. Please state routing of your shipments and method you prefer. Where no instructions are given, we will ship according to the situation, as we think best serves your interest.

TRUCKING

During planting season, our trucks make frequent deliveries to Cleveland, Columbus, Cincinnati, Detroit, Buffalo and Pittsburgh areas. Trucking can easily be arranged to other cities within 500 miles of Painesville. Rates reasonable.

SHADE & ORNAMENTAL TREES

Cole's has long been known for producing the finest in trees for all markets. Continuous research for improved varieties and production methods has resulted in our present leadership in this field. Planted in seven-foot rows, our trees have ample room for proper development of root, body and top. Because all digging and root-pruning is done mechanically, you benefit by a **vastly superior root-system** and consequent transplanting success.

NOTES

The size immediately following the name indicates approximate height at maturity, in cultivation.

Where an item is usually moved with a ball of earth, we indicate the recommended B&B size after the listing, thusly: (4 to 5 ft. 15" Ball), and the price includes balling charges. Should earth balls be desired on other items, prices and weights are listed on page 48.

Although caliper listings of trees are also indicative of top development, we imply no relationship of this measurement to height. This is entirely subject to differences in variety and cultural practices.

	1-4 Each	5-24 Each	25 Up Each	Silver Maple
ACER dasycarpum (saccharinum) — 70'				
Fast growing, graceful. Leaves silvery beneath.				
Stands rather wet conditions, heat and drought.

Introducing TWO NEW MEMBERS OF THE COLE "ROYAL FAMILY OF TREES"

After years of experiment and study on more than ten thousand individual trees, and further close observation and test with two hundred and sixty early selections, Cole now presents a whole new family of Thornless Honeylocusts. Each tree was selected with a specific form and purpose in mind. First came the spectacular Golden Sunburst, already becoming familiar in all parts of America. Now we are proud to introduce these new aristocrats, each distinct in its foliage and habit.

IMPERIAL LOCUST (Plant Patent Pending)

COLE'S new IMPERIAL Locust is an exceptionally graceful, spreading variety that is destined for recognition as one of the outstanding trees of this age. Branches are symmetrically arranged, forming a much more regular and compact tree than other Honeylocusts. It grows straight and strong **without staking**, and produces a dense and uniform crown with a minimum of trimming in the nursery.

Numerous, well-spaced branches emerge from the trunk at nearly 90-degree angles thereby assuring strong crotches. The prolific branching results in a uniform, fairly broad, yet compact head. Even small nursery trees, as young as two years old, have the appearance of rather mature specimens.

The foliage is dainty and refined and has a fresh green color. Leaves are spaced closer than on the Common Honeylocust and, because of the dense branching habit, form a more dense cover. Many thousands of flowers have been observed. All were staminate and no seed pods were produced.

SKYLINE LOCUST (Plant Patent Pending)

COLE'S new SKYLINE Locust is a stately and unusual variety with distinctive pyramidal form. It develops an exceptionally strong, sturdy trunk and shapely crown without being **staked or specially trimmed**.

Branches are uniformly spaced and arranged, resulting in a well-filled tree of rather formal appearance. Strong crotches result from the wide angle — 60 to 90 degrees — at which the branches diverge from the trunk.

The leaves of SKYLINE are dark green and of a heavy, leathery texture. They are more closely spaced, and the leaflets are larger than the average Honeylocust produces, thereby contributing to the compact appearance of the crown. An added touch is the reddish-bronze cast which characterizes the emerging leaves.

Practically all of the flowers produced are male; but infrequently a polygamous flower has appeared in which a single floret is female. Since only a small percentage of these female florets are pollinated, seeding is of minor importance.

MAJESTIC THORNLESS HONEYLOCUST

(Plant Patent Pending)

One of the Cole "Royal Family of Trees"

A strong, exceptionally graceful tree of spreading growth habit, Majestic is much more regular and compact than the ordinary Honeylocust. It is entirely thornless and grows straight without staking.

The bold, abundant foliage is extremely dark green when mature, retains its richness even in drought or wet soils. Flowers are occasionally polygamous, but seeding has been relatively light.

Here is a sturdy tree of outstanding style and character available at **ordinary prices**.

Kentucky Coffeetree

Unless usual planting practice, or the plants' normal habit, dictates otherwise, all Cole trees are standards. Great care is used to maintain a proper balance stem length and head height.

	1-4 Each	5-24 Each	25 Up Each
--	-------------	--------------	---------------

KOELREUTERIA paniculata — 25' **Goldenrain Tree**

Handsome flat-topped tree. Large clusters of yellow flowers in July. Thrives in cities and in many soils.			
4 to 5 ft.	\$ 3.80	\$ 3.30	\$. . .
5 to 6 ft.	5.00	4.40	4.00
6 to 7 ft.	6.20	5.50	5.00

LABURNUM anagyroides (vulgare) — 20' **Goldenchain**

Yellow flowers in racemes up to a foot long. Green branches. We offer well-grown, multiple-stem plants.			
3 to 4 ft. (13" ball)	5.00
5 to 6 ft. (16" ball)	7.35	6.60
8 to 10 ft. (20" ball)	14.00
6 to 8 ft. trees (17" ball)	9.75

LIQUIDAMBAR styraciflua — 60' **Sweetgum**

An excellent, broadly pyramidal specimen tree. Foliage star-shaped, dense, outstanding scarlet in fall.			
1 1/4 to 1 1/2 in.	6.50	5.75	5.25
1 1/2 to 1 3/4 in.	8.60	7.70	7.00
1 3/4 to 2 in.	10.60	9.45	8.50
2 to 2 1/2 in.	14.75	13.25

For B&B prices see balling schedule on page 48

LIRIODENDRON tulipifera — 80' **Tulip Tree**

Fast-growing symmetrical tree with tall straight trunk. Tulip like, yellow flowers in late spring.			
1 to 1 1/4 in.	4.35	3.85	3.50
1 1/4 to 1 1/2 in.	5.90	5.25	4.75
1 1/2 to 1 3/4 in.	7.35	6.60	6.00
1 3/4 to 2 in.	9.25	8.25
2 to 2 1/2 in.	12.20	11.00

MAGNOLIA soulangiana — 18' **Saucer Magnolia**

Most popular of all. Large cup-shaped blooms, lilac pink outside, white inside, in May. Large handsome foliage.			
1 1/2 to 2 ft. (11" ball)	3.25	2.75
2 to 3 ft. (12" ball)	4.25	3.75
3 to 4 ft. (14" ball)	5.65	5.00
4 to 5 ft. (15" ball)	7.75	7.00

s. Alexandrina — 20' **Alexander Saucer Magnolia**

Huge flowers, flushed rosy purple outside, pure white inside			
3 to 4 ft. (14" ball)	6.20
4 to 5 ft. (15" ball)	8.35
5 to 6 ft. (16" ball)	10.50

s. Rubra — 20' **Purple Saucer Magnolia**

Dark reddish-purple, cup-shaped flowers. Blooms later.			
3 to 4 ft. (14" ball)	6.20
4 to 5 ft. (15" ball)	8.35
5 to 6 ft. (16" ball)	10.50

stellata — 10-12' **Star Magnolia**

Dense, mounted habit. Foliage dark; bronzy yellow in fall.			
Double, white, very fragrant flowers in mid-April.			
1 1/2 to 2 ft. (11" ball)	5.00	4.40
2 to 2 1/2 ft. (12" ball)	6.75	6.00
2 1/2 to 3 ft. (13" ball)	9.70	8.50
3 to 3 1/2 ft. (14" ball)	11.25	10.00
3 1/2 to 4 ft. (15" ball)	14.00

MAGNOLIA Continued

--	-------------	--------------	---------------

MALUS Continued***purpurea eleyi* — 15-18'****Eley Purple Crab**

Large carmine flowers and reddish purple foliage.

Cherry red fruits in September.

5 to 6 ft.	\$ 2.15	\$ 1.65	\$ 1.40
6 to 7 ft.	2.45	1.95	1.70
7 to 8 ft.	2.90	2.40	2.15
1 to 1½ in.	3.80	3.30	3.00
1½ to 1½ in.	5.90	5.25	4.75
1½ to 1¾ in.	8.00	7.25	—

p. lemoinei* — 18-20'*Lemoine Purple Crab**

Darkest red flowers of all, large and non-fading. Fruits purplish-red. Foliage dense, dark green to purplish green.

5 to 6 ft.	1.85	1.55	—
6 to 7 ft.	2.45	1.95	1.70
7 to 8 ft.	2.90	2.40	2.15

sargentii* — 8'*Sargent Crab**

Dwarf spreading variety. Clusters of pure white flowers followed by masses of small dark red fruits.

2 to 3 ft.	2.10	1.75	—
3 to 4 ft.	2.75	2.25	—
4 to 5 ft. heavy	6.20	5.50	—

Strathmore**New Upright Type**

Narrow pyramid. Leaves reddish all summer; strikingly red in autumn. Flowers darker than Hopa, fade less.

4 to 5 ft.	2.35	1.85	1.60
5 to 6 ft.	2.85	2.35	2.10
6 to 7 ft.	3.70	3.20	2.90

METASEQUOIA glyptostroboides — 70' (?) Dawn Redwood

Newly discovered tree of pre-historic times. Upright habit, extremely rapid growth. Needles deciduous, feathery, pest-free here. Interesting and gracefully beautiful.

3 to 4 ft. (12" ball)	5.65	5.00	4.50
4 to 5 ft. (13" ball)	7.25	6.50	—
5 to 6 ft. (14" ball)	8.90	8.00	—
6 to 7 ft. (15" ball)	11.65	10.50	—

PHELLODENDRON amurense — 40'**Amur Cork Tree**

Vigorous, strong tree of wide, open habit. Massive picturesque branches and interesting corky bark.

1½ to 1½ in.	5.00	4.40	4.00
1½ to 2 in.	6.75	6.00	5.50
2 to 2½ in.	9.70	8.50	—

PLATANUS acerifolia — 70'**London Plane Tree**

One of today's most popular trees for lawn, street and park planting. Grows rapidly and will stand smoke and abuse of the city. Broad, regular formed head of dense handsome foliage, bright green and healthy. Cole's cutting - grown strain has been the leader for many years.

1 to 1½ in.	4.70	4.20	3.80
1½ to 1½ in.	6.20	5.50	5.00
2 to 2½ in.	13.30	12.00	11.00

Butterfly Bush

Large pyramidal flower spikes in summer.

Burgundy. Burgundy red. New, strong-growing.

Charming. Pink

Dubonnet. Wine-purple. Large spikes.

Snowbank. Hardy pure white. Round, compact sprays.

2 yr. Field Grown (250 up \$0.25)	\$.50	\$.35	\$.30
-----------------------------------	--------	--------	--------

Seems that something good nearly always follows a disaster like our severe May 23rd frost.

Nearly 20 inches of rain fell here during July and August. Had a thunderstorm every weekend. Fishing was only fair and the picnicking lousy, but the shrubs and trees have never looked better.

Above: Truehedge Columnberry. Plants in foreground trimmed once just before this picture was taken.

Left: Untrimmed plant of **Truehedge** on the right; Japanese Barberry to its left.

COLE'S TRUEHEDGE COLUMNBERRY

Berberis thunbergi erecta

Rigidly columnar, compact form requiring almost no trimming. Valuable for narrow hedges, formal specimens, window boxes, etc. Glossy dense foliage turns red uniformly in autumn. Can be held as low as 1 foot tall.

New Tallhedge

COLUMNAR BUCKTHORN

Rhamnus frangula columnaris
Plant Pat. No. 1388

Vigorous, dense growth forms a compact, narrow hedge up to 12 to 15 feet tall, or may be easily sheared to as low as 4 ft. Lustrous dark green foliage; succession of attractive berries all summer change through cream, pink and red to black.

An ideal, thornless variety that fills a long-standing need for a good, tall, narrow hedge or accent plant.

2 to 3 ft. (250 up \$0.25)	.50	.35	.28
3 to 4 ft. (250 up \$0.32)	.55	.40	.35

rugosa — 5'

Adaptable and beautiful, bushy rose. Dark green, rugose foliage turns bright orange in fall. Large pink to white, single flowers from June on. Stands pruning well.

1½ to 2 ft. (250 up \$0.35)	.65	.50	.40
2 to 3 ft. (250 up \$0.45)	.75	.60	.50
3 to 4 ft. (250 up \$0.55)	.90	.75	.65

r. hybrid Max Graf

Excellent prostrate ground cover or vine. Apple-blossom pink blooms, dark green leaves.

2 yr. No. 1	.85	.70	.60
-------------	-----	-----	-----

SALIX purpurea nana — 4'**Dwarf Purpleosier**

Compact, dense mound of blue-gray-green foliage. Extremely hardy, and grows even in wet or heavy soils. Shears well into formal hedges.

12 to 18 in. (250 up \$0.18)	.40	.25	.20
1½ to 2 ft. (250 up \$0.24)	.50	.35	.27
2 to 3 ft. (250 up \$0.35)	.60	.45	.38

ROSE GOLD PUSSYWILLOW

(*Salix gracilistyla*)

Low mounded plant to 3 ft., taking root where stems touch the ground. Foliage silvery, stays on late. Huge catkins silvery-gray, then turn silvery pink and rosy pink dotted with hundreds of bright yellow stamens, and finally become nearly solid gold.

12 to 18 in. (250 up \$0.27)	.50	.35	.30
1½ to 2 ft. (250 up \$0.34)	.60	.45	.37
2 to 3 ft. (250 up \$0.40)	.70	.55	.45

SPIRAEA bumalda Anthony Waterer—3' Dwarf Crimson-flowering

Flat clusters of bright crimson flowers nearly all summer. Dense, dwarf habit, reddish green foliage.

12 to 15 in.	.55	.40	.35
15 to 18 in.	.70	.55	.45

opulifolius — see Physocarpus**vanhouttei — 7-8'****Vanhoutte Spirea**

Popular shrub, a mass of arching white in May. Used for large hedges and massing.

1½ to 2 ft.	.45	.30	.25
2 to 3 ft. (250 up \$0.32)	.55	.40	.35
3 to 4 ft.	.70	.55	.45

EVERBLOOMING PINK SPIREA

(*Spiraea macrothysa*)

Blooms from late July into September with large heads of rich, warm pink flowers often 10 or more inches long on stems up to 4 feet long. Good crisp green foliage even during midsummer.

A fine plant for the shrub border and in masses on slopes, where its layering stems will hold soil against erosion.

2 year, Extra heavy (250 up \$0.22)45	.30	.25

One of our neighbors says there are three sides to every question: his own, his wife's, and to hell with it.

NEEDLE EVERGREENS

Cole's evergreens are properly spaced and sheared to produce dense, symmetrical, colorful specimens. Our light soils produce a naturally fibrous root system that assures successful transplanting. All can be shipped outside the Japanese Beetle Zone.

Prices include a definitely superior job of balling, burlapping and securely rope-tying roots.

Approximate ball sizes are given for your guidance in estimating shipping weights. See inside back cover for ball weights.

3 to 3½ ft. (14" ball)	3.65	3.30	3.00	

DWARF GOLDPLUME FALSECYPRESS

p. plumosa compacta aurea — 6'

Flat-topped globes of gold with plenty of sales appeal. Mature plants become somewhat conical, as broad as high.

9 to 12 in. spread (10" ball)	2.00	1.75	1.50
12 to 15 in. spread (11" ball)	2.25	2.00	1.75
15 to 18 in. spread (12" ball)	2.50	2.25	2.00

p. plumosa Gold Dust — 12'

New Golden Cypress

A bright new color. More intense yellow in summer.

15 to 18 in. (10" ball)	1.90	1.65	1.40
1½ to 2 ft. (11" ball)	2.25	2.00	1.75
2 to 2½ ft. (12" ball)	2.80	2.50	2.25

JUNIPERUS chinensis Armstrongi—4' Armstrong Compact Juniper

New, bright green spreader of great merit. Naturally compact, it remains dense with practically no shearing.

15 to 18 in. (11" ball)	2.90	2.60	2.35
1½ to 2 ft. (12" ball)	3.65	3.30	3.00
2 to 2½ ft. (13" ball)	4.50	4.10	3.75
2½ to 3 ft. (14" ball)	5.50	5.00	4.50

We cannot box balled evergreens for shipment, but can often arrange for truck delivery of small orders. Please inquire.

60 x 32"	4800	6½ to 7 "	93.00	85.00	78.00	71.00
64 x 33"	5600	7 to 7½"	112.00	102.00	93.00	85.00
63 x 34"	6500	7½ to 8 "	138.00	126.00	115.00	105.00

Ball sizes, weights, etc. are only approximate as varieties and soil cause them to vary.

Prices include loading on **open** trucks or trailers. Railroad loading on "Tree" sizes entails extra costs.

Plant Patent No. 1313

America's Newest Tree Sensation

The first new color in a hardy, ornamental shade tree in decades. Bright golden foliage on 8 to 10 inches of branch tips, contrasts with the rich green of the balance of the tree; appears to be in bloom all summer.

- Broadly pyramidal head and excellent branching habit creates a beautiful symmetry unmatched by other honeylocusts.
- Producing only male flowers, Sunburst is absolutely seedless and causes no ground litter.
- Sunburst has been planted from coast to coast, is adaptable to any location and transplants easily. Unusually strong, it has withstood ice and snow storms which completely ruined neighboring trees of other varieties.

SUNBURST PRICE SCHEDULE — 1956-'57

	1-9 Each	30-299 Each	300 up Each
